Health Choice Network Partners with Breedlove

Food for COVID-19 Response

The impact of your donation brings a nutritional meal to so many in need.

The global impact of COVID-19 continues to hit our nation, community health centers (CHCs) and the patients they serve. Our CHCs have been at the frontlines of this pandemic since the outbreak 9-months ago. Health Choice Network (HCN) continues to stand by our CHCs and support their efforts to combat this virus as they care for the hardest hit communities that have been disproportionately affected by COVID-19.

The impact of the pandemic goes far beyond our patients' health as they have also encountered devastating losses and unemployment, which has resulted in many suffering from food insecurity. HCN is partnering with Breedlove Foods, Inc., a commercial-sized non-profit food processor that has helped fight hunger in more than 70 countries, to provide food relief to our CHC patients unable to access food during quarantine.
